## Personal Projects

### [Primed](#)

This project is a visually appealing site that focuses on selling ink. The site is capable of holding the clients email and name input within a MySQL database.

-- CSS3 --  
-- JS-React --

### [Youtube Remake](#)

The youtube remake project was something I re-created by simply copying the landing page of a youtube video.

-- CSS3 --  
-- JS-JQuery --

### [Weather App](#)

Within this project, I used a JSON File in order to pull temperatures from all the states in the US.
